3. Validation and Lock Disposition

Control	Result
Authorized package hashes reverified	PASS
Blocking defects	0
Required corrections	0
Substantive changes after authorization	0
External independent human peer review	Not performed

4. Authority and Post-Lock Rule

This lock records authorship, versioning, archive inclusion, publication authorization, and exact-byte identity. It does not establish empirical truth, mathematical authority, governance authority, or independent peer review.

No substantive or administrative modification to the locked exact files is authorized. Any later correction or addition must be issued as a separately versioned successor record.

5. Final Disposition

FINAL v1.0 - LOCKED
