

# Document 4 Final v1.0 Final Lock Record

## Epistemic Limits and Self-Knowledge

| Control                                | Locked value                                                      |
|----------------------------------------|-------------------------------------------------------------------|
| Lock status                            | FINAL v1.0 - LOCKED                                               |
| Lock timestamp                         | 2026-08-01T08:53:51-04:00                                         |
| Lock method                            | Authorial exact-byte SHA-256 and SHA-512 hash lock                |
| Publication status                     | Authorized; external publication and preservation records pending |
| External independent human peer review | Not performed or claimed                                          |

### 1. Exact Locked Identities

#### Final v1.0 exact-export package

The\_Interrogative\_Conscience\_Document\_4\_Epistemic\_Limits\_and\_Self\_Knowledge\_Final\_v1\_0\_Exact\_Export\_Package.zip

SHA-256: a558bc96d9c0171dbd33880c50c19ee0f65714b9de413ab3ac784e6539793585

SHA-512: c1cf7c7506659a8f86d5df5307701236e405c5ddf42944cafdbf02d19175ad9f48f32a7ef7729fdd7d441fe6d26707da924c445ec6219c06810baa62993f0754

#### Primary Final v1.0 PDF

The\_Interrogative\_Conscience\_Document\_4\_Epistemic\_Limits\_and\_Self\_Knowledge\_Final\_v1\_0.pdf

SHA-256: 278d998262563028c3bf24f24b426ce118e1926566a92bf5159142d1e568dca3

SHA-512: e62094d1f341bf95c3f7cc2bdba42d8ed0dd1164f53d2f85242f2baf6f802193be87291076cc12b9c9673a1d001775579a1a77b30164a45577ab6142b12b1cfc

### 2. Validation and Content Disposition

| Validation channel                      | Result                                      |
|-----------------------------------------|---------------------------------------------|
| Authorized package hashes               | PASS - exact SHA-256 and SHA-512 reverified |
| Authorized primary PDF hashes           | PASS - exact SHA-256 and SHA-512 reverified |
| Substantive changes during final export | 0                                           |
| Source-body render identity             | PASS - 13/13 pages pixel-identical          |
| Composite visual QA                     | PASS - 17/17 pages                          |
| Local structural validation             | PASS                                        |
| Local calculation validation            | PASS - 8 checked example records            |
| Blocking defects / required corrections | 0 / 0                                       |

### 3. Locked Analytical Scope

Document 4 preserves two separate analytical overlays without modifying the locked Document 3 Master Question Registry:

| Question   | Primary answer status   | Locked scope                                                            |
|------------|-------------------------|-------------------------------------------------------------------------|
| IC-EPI-001 | CONDITIONALLY_SUPPORTED | Decision-relative selected-pair, single-check model                     |
| IC-EPI-002 | MODEL_DEPENDENT         | Selected commitment/preservation pair under declared ambiguity criteria |

### 4. Companion-Binary Qualification

This lock does not claim execution against the original unmounted Draft v0.3 JSON Schema and I-01 through I-20 validator binaries. That supporting-artifact validation remains separately deferred. The lock covers the exact Final v1.0 export package, its contained source and review records, and the exact primary Final v1.0 PDF.

### 5. Authority Boundary

The author controls authorship, versioning, archive inclusion, publication, and lock status only. This record does not establish empirical truth, mathematical authority, external governance authority, behavioral authority, or independent peer review.

### 6. Post-Lock Rule

No substantive or administrative modification to the locked exact files is authorized. Any correction, expansion, or replacement must be issued as a separately versioned successor record.

### 7. Authorial Authorization

Thomas Vargo (Aegis Solis) explicitly authorized the cryptographic lock of the exact package and primary PDF identities recorded above, and authorized later external publication and preservation subject to accurate public records.

## FINAL v1.0 LOCK COMPLETE

The exact locked files must not be modified. Any later correction or expansion requires a separately versioned successor.
