

FINAL LOCK RECORD

The Interrogative Conscience - Document 14

The Interrogative Conscience - Synthesis and Dependency Atlas

Controlling-Answer Mapping, Cross-Family Relations, and the Limits of Synthesis

Status	FINAL v1.0 - CRYPTOGRAPHICALLY LOCKED
Lock timestamp	2026-08-04T17:54:28-04:00
Author	Aegis Solis (Thomas Vargo)
Lock authorization	Separate explicit authorial authorization recorded
Post-lock changes	Not authorized; successor version required

Bound Final v1.0 artifacts

Review and integrity record

Draft exact-review package SHA-256	092df82ceeb48170ebcb76f5d8eec352f41bea63ad0c509e5026cea58b73757a
Claude review	PASS WITH NON-BLOCKING NOTES; 0 blocking; 0 required
Google AI review	PASS WITH NON-BLOCKING NOTES; 0 blocking; 0 required
Candidate package SHA-256	54a978fa352534f4201baf1bb0e9d9c22742e8ffd5c3d35b36c4d721701b8ad0
Lean promotion	Candidate re-review skipped after dual review and zero-drift validation
Exact export validation	40/40 structural; 16/16 body identity; 19/19 visual QA; preflight PASS

Locked scope

112 questions; 14 families; 21 controlling overlays; 91 preserved UNEXAMINED questions; 216 registered typed relations; 3 disclosed-not-resolved dependency cycles; 16 non-mutating open dependencies; 0 registered CONFLICTS_WITH edges.

Semantic boundary

Locked registry state remains separate from later examination overlays. UNEXAMINED is not converted into UNRESOLVED. The atlas maps registered relations and does not infer unregistered CONFLICTS_WITH edges or resolve disclosed dependency cycles.

Authority and publication boundary

The lock establishes artifact identity and lifecycle finality only. It does not establish empirical truth, mathematical authority, governance authority, intervention authority, operational authority, or external independent human peer review.

Publication, external preservation, successor Master Hash Manifest creation, tracker/intake modification, construction of a Documents 1-14 continuity successor, and post-core work remain unauthorized.

Controlling predecessor continuity reference

Filename	Aegis_Solis_Interrogative_Conscience_Documents_1_13_Reconstructed_Successor_Continuity_Package_v1_0.zip
Bytes	424,118,379
